Store Replenishment Solutions

RSPS - Robotic Shuttle Product Sortation

Depiction	US Patent #
 A 3D perspective rendering of a robotic shuttle product sortation system. It features two long, parallel conveyor belts with a central robotic shuttle mechanism. The system is enclosed in a metal safety cage with yellow safety railings. The shuttle is shown in the process of moving between the two conveyor belts.	12076752 11198532 11673255 11866224 10730078 11400491 10583986 11866261 11932489 11472633

Robotic Put Wall Solutions

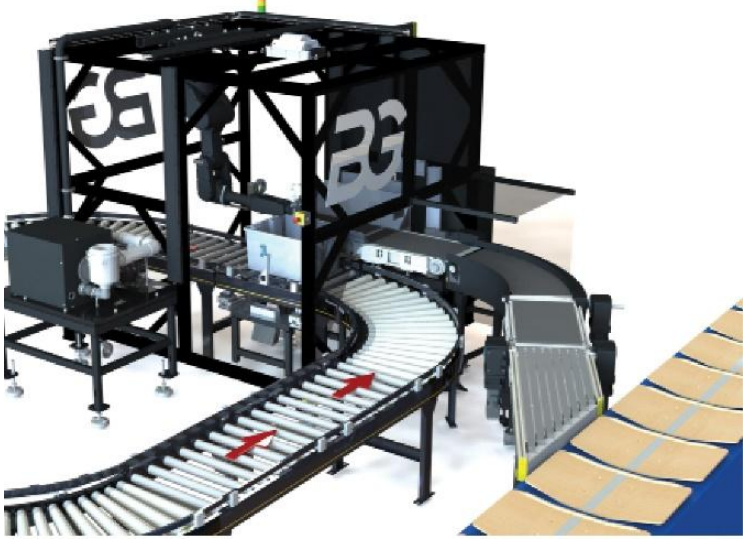

RSPWi - Robotic Put Wall

Depiction	US Patent #
 A 3D perspective rendering of a robotic put wall system. It shows a conveyor belt on the left with green product boxes being fed into a robotic put wall structure. The structure consists of multiple rows of shelves or bins. Two human figures are shown for scale: one standing near the conveyor and another near the put wall. The system is enclosed in a metal safety cage with yellow safety railings.	12076752 10730078 10583986
